

Call for Tutorial Proposals

The 8th Working IEEE/IFIP Conference on Software Architecture (WICSA) and the 3rd European Conference on Software Architecture (ECSA) have merged in 2009 to provide a unique forum for researchers and practitioners to present and discuss the latest R&D outcomes, experiences, trends, and challenges in the field of software architecture. This synergistic coupling of WICSA and ECSA for the first time promises an even more inspiring and productive event in 2009.

WICSA/ECSA 2009 will offer tutorials as well as research and working sessions and workshops. Tutorials provide an educational setting in which researchers and practitioners can learn cutting edge tools and methods.

A number of tutorials will be hosted in conjunction with the conference program. We invite submissions to present either half day or full day tutorials on topics related to software architecture.

Submission

A proposal should be no more than 2 pages, and outline the tutorial contents, intended audience and the tutorial experience of the presenters. There are no specific format requirements. Submissions should be emailed to Judith Stafford (jas@cs.tufts.edu) on or before April 28, 2009.

Review Criteria

Tutorials will be selected based upon their appropriateness to the goals of the conference and their expected ability to draw an audience.

Sponsorship

For a tutorial to be sponsored by WICSA2009 it must draw a minimum of 10 paid attendees. Full day tutorials will be sponsored with a \$700 honorarium; honorariums for ½ day tutorials will be \$350.
